A strawberry grows from the flower of a strawberry bush. And it contains seeds. An orange grows from the flower of an orange tree. And it contains seeds. A tomato grows from the flower of a tomato plant. And it contains seeds. All of these grow from flowers and contain seeds. That is why they are fruits.

Now let's talk about vegetables. A vegetable usually isn't sweet. Broccoli is a vegetable, and it is not sweet. Lettuce is a vegetable, and it is not sweet. A radish is a vegetable, and it is not sweet. But not all vegetables are not sweet. A sweet potato is a vegetable, and it is very sweet.

So what is a vegetable? A vegetable grows from the earth. And it does not contain seeds inside of it. Broccoli grows from the earth. And it does not contain seeds. Lettuce grows from the earth. And it does not contain seeds. A radish grows from the earth. And it does not contain seeds. A sweet potato grows from the earth. And it does not contain seeds.
