Teaching suggestions

- introduce the topic of expected behaviour in Canadian society by engaging students to brainstorm vocabulary pertaining to human behaviour
- elicit from students what they know about acceptable and unacceptable behaviours in public, write them on the board under two headings
- ask them in groups to talk about what behaviours they consider appropriate and inappropriate
- distribute the handout "Reaction to Appropriate and Inappropriate Behaviors" and ask the students to read the contents in the first left column, answer their questions related to vocabulary and expressions
- Give them 15 to 20 minutes (depending on the level) to write their own opinions for each behaviour in the "You" column.
- have students to interview 2 classmates, whom they usually don't sit with, to ask the questions and write down their responses in the appropriate columns, they need to discuss their responses in pairs and get ready for a class discussion to express (offer) possible solutions for unacceptable behaviours (30-40 minutes depending on the level)
